EDUCATION

University of Texas at Arlington, Arlington, TX, MS in Engineering Management	Aug 2022 – May 2024
RV College of Engineering, India, BE in Computer Science	Aug 2018 – May 2022

CERTIFICATIONS

- Lean Six Sigma Green Belt (KPMG), CAPM Certification (PMI), Foundations of Project Management (Google), Business Analysis for Project Managers and Root Cause Analysis (LinkedIn), Certified Scrum Master (Scrum Alliance)

WORK EXPERIENCE

Microsoft, Redmond, USA	Mar 2025 – Present
AI Product Manager, AI Agents, Supply Chain & Commerce	

- Shipped Microsoft Supply Chain AI Agent enabling **natural-language retrieval** of sales, POs, and shipment ETA by SKU, reaching **30K MAU** and **98% adoption** in the FY25 budget cycle, by leading **backlog prioritization** and acceptance criteria across a team of **26 engineers**.
- Scaled Sourcing Agent with a budget and subscription feature, delivering real-time fiscal-year budget, cost-curve, supplier-trend, and spend-comparison answers with proactive BOM and price-gap alerts, cutting sourcing managers' manual search time by **70%**.
- Drove agent-quality improvements by analyzing Python/Copilot CLI graphs (thumbs up/down rate, **DAU/MAU**, user retention, turns-to-resolution) and classifying **intent** from agent conversation logs to inform product decisions for agent improvements.
- Owned VSB Self-Serve Commerce Platform **roadmap** and shipped it to **General Availability** targeting **~\$200M** incremental revenue, by driving **feature prioritization decisions** and coordinating P0/P1 resolution during Hypercare.
- Resolved **6 invoice and credit-memo escalations** for a major customer, lifting success rate to **90%** and cutting SLA time **30%**, by running root-cause analysis on Microsoft's commerce APIs and partnering cross-functionally to author **BRDs**.
- Implemented and presented a no-code Power Automate flow mapping form inputs to Azure DevOps, eliminating **90% of manual bug-transcription errors** and improving productivity across the PM team.
- Improved sprint prioritization efficiency by **30%** with Power BI dashboards surfacing **backlog health, planned-vs-done**, and burndown trends.
- Led org-wide **AI Fluency training** for a broad audience, building awareness on data intelligence principles and best practices for AI Agents.

Credwise.ca, Remote, USA	Aug 2024 – Jan 2025
Neo-banking fintech helping immigrants build credit history before arrival in Canada.	
Technical Project Manager, Agentic Rewards Platform	

- Built RewardsX on Google Cloud and Firebase with **RAG architecture** (Gemini LLM + Quadrant vector retrieval), delivering natural-language rewards-query capability with personalized, context-aware responses for users.
- Shipped **3 RewardsX applications** (credit card data storage, store-level personalized recommendations, customer-pattern engine) projected to increase user cashback by **25%** and grow platform engagement.
- Drove end-to-end delivery in ClickUp across timelines and resources, producing **project plans**, estimations, and specs that kept a distributed cross-functional team aligned and on track throughout the full cycle.

Genpact, India	Mar 2022 – Jun 2022
Automation Engineering Intern, Intelligent Automation	

- Designed 10 Cora Sequence automation modules (User Login, Test Forms, Interview & Onboarding) backed by SQL databases for Employee, Candidate, and Jobs data, enabling **end-to-end HR process automation**.
- Trained the full HR department on the new placements portal, eliminating manual steps previously handled outside the system and improving onboarding consistency and operational efficiency across the team.

PROJECT EXPERIENCE

University of Texas at Arlington, Arlington, TX	Aug 2023 – Dec 2023
Product Manager, MS Eclipse Laptop	

- Led **cross-functional planning** across Project, Program, Finance, and Risk teams using Crystal Ball software, capturing **5% market share** selling **260K units** at **80% sell-through** and **30% return on sales**.
- Built the baseline program plan for the MS Eclipse launch, delivering a **SWOT analysis**, Organizational Breakdown Structure (OBS), Risk Breakdown Structure (RBS), and Gantt chart tracking milestones across the full product lifecycle, aligning all cross-functional stakeholders.
- Reduced **budget risk** by negotiating the in-house vs. vendor-supplied product mix with the risk team to secure a lower total program cost.

SKILLS

- Technical Skills:** SQL, Python, C, HTML, Cora Sequence, Minitab, ClickUp, LLM, RAG, Prompt Engineering, Metrics Collection & Analysis
- Methodologies:** Agile Scrum, Waterfall | **Frameworks:** Kanban, Scrum
- Software Proficiency:** Microsoft Excel, PowerPoint, Tableau, Azure DevOps, Power BI, Power Automate, JIRA
- Management Skills:** Stakeholder Management, Cross-Functional Leadership, Sprint Planning, Backlog Management, Data-Driven Prioritization, Strategic Thinking, Executive Stakeholder Communication

ACHIEVEMENTS

- Maverick Advantage Distinction:** excellence in academics and co-curriculars (May 2024)
- Business Marathon Runner-Up:** sustainable transportation analysis (May 2022)
- IEEE CSBC Student Coordinator:** organized coding events and inter-collegiate hackathons (2020–2021)
